OBJECTIVE

To be employed in a dynamic and challenging environment where I can utilize my skills and abilities as a software engineering student to the fullest, contributing to the success of the organization. I am eager to further advance my career prospects and continually grow in the field of software engineering.

EDUCATION

Naleemiah College - G.C.E Advanced Level (A/L) Examination, Sri Lanka (2019)

CCAS campus, Gatehouse(UK) - Diploma In English (2024)

University of Peradeniya - Bachelor of Arts (2019**)**

Open University of Sri Lanka - Bachelor of Software Engineering (Honors) (2021/2022 – Present)

EXPERIENCE

Software Engineer Intern
Asipiya International (Pvt) Ltd – Colombo, LK (**Mar 2025 – Oct 2025)**

- Developed and deployed multiple MERN stack projects including a To-Do List App, User Dashboard, Blog Post Website, Ticket Manager System, and SMS Management System.
- Developed and enhanced the company website to improve performance, responsiveness, and design consistency.
- Improved UI/UX design, conducted testing and debugging, participated in code reviews, mentored peers, and collaborated effectively with the team.

Freelance Developer & Designer (Part-Time) – Remote (2023 – Present)

- Working on platforms like Fiverr, Upwork, and Sprout Gigs
- Completing various freelance projects in web and graphic design

SKILLS

- **Languages:** Java, Python, C, C++, JavaScript, HTML, CSS, SQL, PHP, Flutter, Go
- **Frameworks & Technologies:** ReactJS, React Native, Tailwind CSS, ExpressJS, NodeJS, MongoDB, MySQL, Firebase, Selenium, JMeter, Figma, Canva, Adobe Photoshop
- **Dev Tools & Platforms:** Git, GitHub, Visual Studio Code, IntelliJ IDEA, MySQL Workbench, Eclipse, Code::Blocks, PyCharm, SQL Developer, NetBeans, Visual Studio, Android Studio Microsoft Teams, Zoom
- **AI Tools:** Copilot AI, Perplexity, ChatGPT, Gemini, Deepseek, Grok, Claude, DALL·E
- **Multilingual Communication:** Proficient in English, Sinhala, Arabic, Tamil with strong capabilities in spoken and written communication

PROJECTS

"Recipe Rescue" Android App

- Technologies Used: Java, Android Studio
- Developed an app that suggests recipes based on available ingredients

Tourist Website

- Technologies Used: HTML, CSS, JavaScript
- Created a comprehensive website featuring various tourist destinations, their descriptions, and travel guides.

Text-Based Chatbot & Hangman Game

- Technologies Used: Python, NLTK
- Developed a text-based chatbot with basic NLP and a Hangman game where players guess letters with a limit of 5 incorrect guesses.

Stock Portfolio Tracker

- Technologies Used: Python, yfinance
- Developed a program for managing stock investments, allowing users to add, remove, and track performance in real-time.

Android Healthcare Application

- Technologies Used: Java, Android Studio
- Built an Android app offering healthcare services like medicine purchases, doctor appointments, health updates, and order tracking.

Personal Portfolio Website

- Technologies Used: HTML, CSS, JavaScript
- Designed and developed a responsive personal portfolio website with modern design principles for compatibility across devices.

Pacman Game

- Technologies Used: Java
- Developed a classic Pacman game using Java for an engaging user experience.

Book Store Project (MERN Stack)

- Technologies Used: MongoDB, Express.js, React, Node.js
- Built a book store application with features to browse and manage books using the MERN stack.

Ticket Manager System (MERN Stack)

- Technologies Used: MongoDB, Express.js, React, Node.js
- Developed a complaint management system allowing users to book complaints, track progress, and manage all complaint-related activities efficiently.

SMS Management System (MERN Stack)

- Technologies Used: MongoDB, Express.js, React, Node.js
- Built an SMS management platform to send messages to groups, manage contact groups, and use separate message templates for bulk communication.

CERTIFICATIONS & LEARNING

- Completed certified courses on FreeCodeCamp, SoloLearn, Udemy, University of Moratuwa, Coursera (University of Colorado Boulder), and edX
- Participated in online programming bootcamps covering HTML, CSS, JavaScript, Python, and other languages.
- LeetCode practice: Regularly solving coding problems to enhance algorithmic and problem-solving skills.
